Due to the operation of multipoint locks, we recommend the specification of Levers attached whenever possible. Should you require plates only - please contact us for ordering details.

Spring Assisted Backplates

- Available on Face Fix and Bolt Fix Backplates only, and only where the Levers or Knobs are fitted to the Backplates (circlip fixed).
- Not available on Concealed Fix Backplates.
- Thickness of the Backplate is 9mm in all cases to accommodate the Spring Cassette, which is fitted into the inside plate only.
- Spring Assisted Backplates require a raised collar - G type flush collar is NOT possible.
