

Door Lever Sets - 55 series

Traditional spring loaded Door Lever Sets offered in Latch/Passage, Privacy, Keyhole and Profile Cylinder configurations.

RH shown

▲ 5512

Fixings

Standard Lever Sets are designed for uncontrolled, hinged, solid residential doors and are supplied with finish matched no.6 x 19mm wood screws (except 5512 Concealed Fix Rosette - supplied with no.6 x 19mm wood screws and M5 x 70mm machine screws for bolt through fixing - see page DF1:210); and an 8mm x 90mm stainless steel spindle (60mm max. door thickness).

Alternative spindle lengths and functions are available - see page DF1:210.

NB. Microtite Spindle Option is recommended for hollow core doors or those with door controls and/or seals.

How to Order

Split Finish Sets - order as singles

5510, 5512, 5516, 5521 & 5531:

1) select LEVER SET (e.g. **5516**)

2) add FINISH (e.g. **5516PB**)

If half set only required - add HANDING (e.g. **5516PB/LH**).

5522-5 & 5532-5:

1) select PLATE SIZE & FUNCTION (e.g. **5523**)

2) add FINISH (e.g. **5523PC**)

3) add CENTRES (e.g. **5523PC57**)

If half set only required add HANDING (e.g. **5523PC57/LH**).

5527-9 & 5537-9:

1) select PLATE SIZE & TURN DESIGN (e.g. **5529**)

2) add FINISH (e.g. **5529PC**)

3) add CENTRES (e.g. **5529PC57**)

For half set coding add T (turn) or R (release) and HANDING (e.g. **5529R/PC57/LH**).

* For coin release with indication please contact us for coding information.

Finishes - See our price list or website for finish availability.

Door Lever Options

Fixed Dead (Dummy) Option

As an alternative to using Taylors Spindles we can factory fix dead levers to plates and roses.

To order this option, add **FD** to code for half sets (e.g. 5521PB/RH/**FD**), or **FDS** for full sets (e.g. 5521PB/**FDS**).

Methodology:

Plate adapted to prevent lever from rotating, then an M10 Clamping Bolt with threadlock secures lever in place.

Unsprung Option

All traditional Levers are available Unsprung, which will facilitate use with a multipoint lock mechanism. To order this option add **NSP** to code (e.g. 5535PC92/**NSP** for full sets & 5535PC92/LH/**NSP** for half sets).

Microtite Option

- Recommended for hollow core doors or those fitted with a door control and/or seals.
- Unique sprung design.
- Infinitely adjustable for doors between 35mm and 65mm thick.
- All the pulling force is transferred through the spindle.
- No visible grubscrew.
- Split finish sets are available - please contact us for coding and pricing information.

To order this option add **MC** after primary code (e.g. 4478**MC**/PC72)

Concealed Fix Rosettes

All traditional Levers (section DF1) are available fitted to concealed fix, sprung loaded, rosettes.

These provide for woodscrew fixing and/or through bolt fixing using break-off machine screws at 38mm centres in a horizontal orientation.

Alternative orientations (eg. vertical) can be provided - please contact us for further information.

Fixings provided (all stainless steel) - 8pcs no.6 x 19mm wood screws & 2pcs M5 x 70mm break-off machine screws per set (screw pack also available separately - code 01/036).

Spindle Options

	A	B	C
L (length)	90	130	175

▲ **9005 Plain Spindle** (stainless steel)

For fixed dead mounting of traditional knob & lever furniture (sections DF1 & DF2). Supplied with no.6 x 19mm wood screws.

▲ **9000 Taylors Spindle** (zinc plated steel)

Multipoint Lever Sets - 397 Series

An unsprung, Regency style, Door Lever Set, configured to work with both European and US Multipoint Locks. Alternative through-bolt positions are available upon request.

397M08/PC/3711/RH shown

Fixings

Supplied with M5 x 25mm finish matched slotted blind nuts, M5 allthreads and an 8mm x 110mm stainless steel lockpoint spindle with grub screws, all to suit doors up to 75mm thick.

How to Order

Split Finish Sets - order as singles

- 1) select LOCK TYPE (e.g. **397M**)
- 2) add FUNCTION code (e.g. **397M02**)
- 3) choose TURN, see Allart Select pages ST7:130/140 for Turn options (e.g. **397M02/T61**)
- 3) add FINISH (e.g. **397M02/T61/ABU**)
- 4) choose LEVER, see Allart Select section ST1 for Lever options (use code 3711 for Lever illustrated here) (e.g. **397M02/T61/ABU/7771**)
- 5) add HANDING (e.g. **397M02/T61/ABU/7771RH**).

For FIX DEAD pairs of plates add FDS to code (e.g. **397M04/ABU/7771RH/FDS**).

For FIX DEAD single plates add FD to code (e.g. **397M09/ABU/7771RH/FD**).

NB. Multipoint Lock Sets are handed from the OUTSIDE plate - see illustrations.

▲ **3004 (unsprung) / 3003 (sprung)**

Plate thickness 10mm

LH Set shown with 5720 Levers & 92mm centres

▲ **3006 (unsprung) / 3002 (sprung)**

Plate thickness 10mm

Fixings

Supplied with M5 x 25mm finish matched slotted blind nuts, M5 allthreads and an 8mm x 110mm stainless steel lockpoint spindle with grub screws, all to suit doors up to 75mm thick.

How to Order

Split Finish Sets - order as singles

- 1) select PLATE (note different fixing positions, and sprung/unsprung)
- 2) add FINISH (e.g. 3004PC)
- 3) add CENTRES (e.g. 3004PC92)
- 4) add LEVER DESIGN (e.g. 3004PC92/5220)

5) add HANDING*, unsprung versions only (e.g. 3004PC92/5220RH)

*Handing not needed for sprung versions as levers are supplied loose, unsprung version levers are circlip fixed.

Handing is from the OUTSIDE plate - see illustration.

Single Plates & Exterior Plate without Cylinder cutout are available - please contact us for coding information.

Finishes - See our price list or website for finish availability.
