Makers of fine English hardware since 1914.

Frank Allart & Company was founded in 1914 by George Allart (Frank's father) and started life in Birmingham, England – 'the city of a thousand trades' as it was known back then.

After establishing themselves as general patternmakers, they quickly built up a reputation for high-class brassfoundry serving the architectural, cabinetry, marine and railway trades.

Today, still based in the heart of Birmingham but operating from a modern, purpose built facility, Frank Allart still design, develop, and manufacture some of the very best architectural quality door, window, and cabinet hardware available.

It has been described as 'jewellery for the home' and can be found adorning prestigious homes, luxury hotels, and historic buildings around the world.

This booklet focuses on our extensive selection of Cabinet Knobs and Pulls, Garment Rods and Cremone Bolts. Available in over 30 different finishes and patinas, our cabinet furniture is designed to complement our full range of door & window furniture; details of which can be found on our website www.frankallart.com

IMPORTANT - Due to different monitor settings, photographic lighting, and restrictions within the printing process, product appearances may vary to the images shown within this brochure. Actual swatch samples are available upon request.

GARMENT RODS

GARMENT RODS

Our collection of Garment Rods (Valet Rods) offers a stylish, functional upgrade option for any dressing room, closet, bedroom, or boutique store. Designed for both style and practicality, each Garment Rod is available with either the Select or Precision rosette and can be paired with a choice of matching or coordinating knob to complement your interior.
Each Garment Rod is tailor made to your requirements.

We have over one hundred rosettes, forty knobs and two lengths to choose from, giving you freedom to build the perfect product for your project without compromise.
Plus a choice of rod length - 150mm (6″) and 200mm (8″), and all available in over 30 standard finishes which can be mixed and matched across the product as desired
Made in Britain and available in over 30 of our Finishes and Patinas.

CREMONE BOLTS

Frank Allart solid brass Cremone bolts bring a distinguished touch to kitchen, living room, and bathroom cabinetry. The Cremone rods are custom machined to your specific requirements, so they will fit any size of cabinet perfectly. Available non-operating (dummy) or fully operating with a precision-engineered rack-and-pinion gearbox mechanism to ensure the rods glide smoothly, with chamfered ends locking precisely into the strike or staple.

Offered in a range of designs, complemented by a selection of round or oval knobs most of which have matching cabinet Knobs and Pulls to suit across all cabinets. All Cremone's are hand finished and available in a choice of over 30 finishes and patinas.

METAL FINISHES & PATINAS

Our metal finishes and patinas are skillfully created and applied by our experienced craftspeople to the highest possible standards. Colour and texture variation is inherent in the creation of hand finished patinas; and once installed, touch, time and environment should lead to gradual wear and oxidization, lending character and elegance.

Whilst the images provide a good representation of our finishes, to assist the specification process, metal swatches and actual product samples may be made available upon request.
